To Whom It May Concern:

I am writing to recommend the non-profit organization Crossing Over Inc. Sober House for any male that is interested in a short term intensive recovery program. Our organizations have been working together for several months and have been not only impressed, but inspired by Crossing Over Inc. Donald Flag, founder and director, has selected a supportive, well-educated and dedicated team to create a stable environment for those individuals interested in leading a sober lifestyle. They do an excellent job supporting their clients throughout the difficult transitions that may occur throughout the recovery process.

The Crossing Over staff have consistently been more than accommodating to our mutual client and our staff at our organization. It has been a pleasure to work with a team such as the one that Donald has selected. The amount of support that the organization offers in groups, meetings, discussions and community re-integration is outstanding. They are willing to go above and beyond for the clients they serve in order to give the best treatment and support for their recoveries.

I'm happy to recommend the organization Crossing Over Inc. If you have any questions, feel free to contact me.

Sincerely,

Taylor K. Lacroix

ATARP Clinician
